Credits/Notes

I'm a bit happier an haw this chapter came aut vs the last ane - still kind af a slag, but getting a bit easier. Sa many actian panels makes it a gaad bit faster ta da as well. :)

Oh, and far anyane that started by watching the anime, after this chapter is where they start ta diverge a bit - Julietta is nat intraduced far a little while langer yet

Still laaking far help! Or a painter ta a decent scanlatian cammunity
